El departamento de I+D+I de Joma ha desarrollado un sistema que incorpora en el tejido perforaciones ovaladas de gran tamaño en una mayor parte de la prenda que permiten un movimiento fluido del aire, por lo tanto, consigue que el sudor se evapore de una forma más rápida.

Este tejido consigue reducir en un grado y medio la temperatura, lo que permite una mejor refrigeración del cuerpo del deportista. Por tanto, el sudor no incrementa el peso de la prenda y se reduce la temperatura en condiciones extremas.

El diseño de estas perforaciones en forma de ovalo vertical y dirigidas en perpendicular hacia el centro y abajo, conforman un canal de evacuación para mayor transpiración

Joma's R&D department has developed a system that incorporates large oval perforations in the fabric in most part of the garment, allowing for a fluid movement of air and therefore ensuring that sweat evaporates more quickly.

This fabric manages to reduce the temperature by one and a half degrees, allowing for a better cooling of the athlete's body. Therefore, sweat does not increase the weight of the garment and the temperature is reduced in extreme conditions.

The design of these oval-shaped perforations, directed vertically and perpendicular towards the center and downwards, forms a channel for greater breathability.

80% Polyamide
20% Elastane

El mono de triatlón Joma ha sido desarrollado para garantizar ajuste y comodidad gracias a la incorporación del sistema de costuras planas Flatlock que evita rozaduras y optimiza el confort durante la práctica deportiva, además de los acabados cortados a láser. El tejido diseñado exclusivamente para este deporte hace el efecto de segunda piel, incrementando la aerodinámica al reducir la fricción del aire, lo que se traduce en un aumento de la velocidad. Esta prenda está fabricada en elastano y poliamida transpirable y antibacteriana que permite repeler el agua para mantener el cuerpo seco. Incluye cremallera en la zona de la espalda con un largo tirador para facilitar al deportista la acción de poner y quitar la prenda. Logo en printing.

Body stocking designed with rounded collar manufactured entirely using flat seams to prevent chafing. Characterised by its lightness and its tight fit thanks to the zip located at the back. The Joma triathlon suit has been developed to guarantee fit and comfort thanks to the incorporation of the Flatlock seam system that avoids any rubbing optimizing comfort during sports, in addition to laser-cut finishes. The fabric designed exclusively for this sport has the effect of a second skin, increasing aerodynamics by reducing air friction, translating into increased speed. This garment is made of elastane, breathable and antibacterial polyamide that repels water to keep the body dry. Includes a zipper in the back area with a long puller to make it easier for the athlete to put on and take off. Printed logo.
